

I support Indiana's "Do Not Call" Law AS IS and am opposed to any legislation or petitions that undermine it AS IS. This includes the petition of CBA Bank Members to the FCC (Reference #02-278). I work the midnight shift as a nurse and my right to choose to not recieve unsolicited phone calls when I am trying to sleep should be respected. Not only am I against their petition, but I think that they should have consequences for trying to undermine the law that many Indiana Citizens support.
